

IMPORTANT EMISSIONS CAMPAIGN – UPDATE
This notice applies to your vehicle, VIN:
EPA & CARB Approved Emission Modification – OM642 Sprinter EMC #1

July 2021

Dear Freightliner Sprinter Owner or Lessee:

We recently sent a letter to you advising that Daimler AG and Daimler Vans USA, LLC (“DVUSA”) had reached a settlement with the United States Department of Justice, the Environmental Protection Agency, the California Air Resources Board, and the California Attorney General’s Office, regarding the emission control system in your Sprinter vehicle. As part of this settlement, we offered a modification to your vehicle’s emission control system, available to you free-of-charge.

This notice is to inform you that the installation of the emission modification for your Sprinter vehicle may take longer than initially anticipated. It was estimated that the modification would take approximately 1.5 hours; however, for a limited number of vehicles such as yours, it may take up to 2 days in order to complete the update. We are providing this courtesy notice so that you can plan accordingly when scheduling your emission modification.

If you have already received the emission modification, no further action is required. If you have not yet received the emission modification, please contact your preferred authorized Freightliner Sprinter dealer to schedule an appointment to receive the emission modification. To locate authorized dealers please visit <https://www.freightlinersprinterusa.com/freightliner/shopping-tools/find-a-dealer>. If you have questions regarding the emission modification, please visit <https://BlueTecUpdate.freightlinersprinterusa.com>, or contact us at 1-833-841-9363.

We sincerely apologize for any inconvenience and appreciate your cooperation.

Sincerely,
Daimler Vans USA
